

TUNKU NASRUAN ADIL

This enterprising blue blood continuously strives for improvement, for both himself and the people around him

1 BEING IMPACTFUL

I recently launched an app called Pasar that makes it more convenient for people to buy groceries. Plus, we are also making a difference by helping the local merchants on the streets rather than large supermarkets that are already well equipped.

2

GOALS FOR THE APP

The main goal is to assist local merchants by growing their business and being more profitable. We have had lots of inquiries from within Malaysia and identified a real need for this app.

My philosophy in life

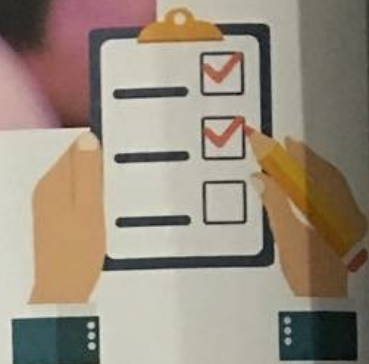

MY BELOVED LATE GRANDFATHER, TUANKU JA'AFAR TUANKU ABDUL RAHMAN ONCE SAID: "I'VE ALWAYS BEEN HAPPY: SMILE, AND BE OF GOOD CHEER, I SAY. IT'S A GOOD MOTTO TO LIVE BY." AND THAT IS EXACTLY HOW I INTEND TO LIVE!

3 SELF-MOTIVATION

I motivate myself by looking at what my entire family has accomplished. My family is very business oriented, and I want to say that I'm able to bring something new to the table.

Yes. You Can!

4 PRODUCTIVITY SECRETS

Making a list of short-term goals. Setting these targets help me achieve other ultimate objectives—besides the app, I'm also looking into other ventures.

5 MY MISSION IS TO...

Boldly go where no one has gone before.

GEN.T

Generation T are young individuals that Malaysia Tatler considers to be the brightest connectors, creative visionaries and influential innovators who are transforming Malaysia.
